	4,000+	7	16	15	12	21	13	13
	Unknown	25	67	29	13	15	18	12

¹ Include spontaneous terminations of pregnancy at 20 or more weeks of gestation (or if gestational age is unknown, the deaths of fetuses of at least 350 grams in weight), exclude induced terminations of pregnancy.

²For statistical purposes, fetal deaths are classified according to gestational age. A death that occurs at 20 or more weeks of gestation constitutes a fetal death, and after 28 weeks it is considered a late fetal death.

Note: The number of reportable spontaneous fetal deaths for 2004 was revised. The values in the 2004 column above may differ from those previously published.
