ADVANCE VITAL STATISTICS BY COUNTY OF RESIDENCE ARIZONA, 2012

by

Nicholas J. Bishop, Ph.D., *Arizona Vital Statistician*
Clare Torres, *Senior Health Data Analyst*
Sanhita Gupta, *Vital Statistics Health Management Analyst*

June 2013

PREFACE

This report provides readers with the statewide and county-level vital statistics information for 2012. It is provided in advance of the publication of "*Arizona Health Status and Vital Statistics, 2012*". The complete yearly report will be available fall 2013.

The source documents for the data presented in this report are 2012 vital records: certificates of live births, certificates of deaths, and fetal death certificates filed with the Arizona Department of Health Services on or before May 3rd, 2013. Information on abortions is compiled from reports sent by providers within the state. The counts of marriages and dissolutions of marriage are reported monthly by the Clerk of the Superior Court of each county where the marriage or dissolution of marriage occurred.

The 2012 Advance Vital Statistics report is the first report in this series to include cell suppression. To protect the anonymity of the individuals included in this report, cells in tables with five or fewer observations are denoted by an asterisk (*), cells containing rates based on counts of five or fewer are denoted by a double-asterisk(**), and cells containing sums based on addends of five or fewer are rounded to the nearest tens-unit and denoted by a dagger (†).

The first part of this report presents a summary of pregnancies by pregnancy outcome, births and deaths, spontaneous and induced terminations of pregnancy, and marriages and marriage dissolutions for the state and by county in 2012.

The second part focuses on selected demographic and prenatal care characteristics of the women giving birth (age group, marital status, trimester of entry into prenatal care, party paying for the delivery, number of prenatal visits) and the incidence of low-birthweight.

The third part addresses cause-specific and age-specific mortality by county, urban/rural region, and race/ethnic group in 2012.

The fourth part of the report provides population denominators for 2012 by age group, gender, and county of residence. The 2012 Arizona Department of Health Services population denominators were estimated using the 2012 population projections obtained from the Office of Employment and Population Statistics within the Arizona Department of Administration.

It is hoped that this advance vital statistics report will be a valuable resource for public health and other professionals until the full annual report is available. The online editions of "*Advance Vital Statistics by County of Residence in Arizona*" for 2001–2012 are available at:
