# PREFACE

This report provides readers with the statewide and county-level vital statistics information for 2022. It is provided in advance of the publication of "*Arizona Health Status and Vital Statistics, 2022*". The complete yearly report will be available at the end of 2023.

The source documents for the data presented in this report are 2022 vital records: certificates of live births, certificates of deaths, and fetal death certificates filed with the Arizona Department of Health Services on or before June 1<sup>st</sup>, 2023. Information on abortions is compiled from reports sent by providers within the state. The counts of marriages and dissolutions of marriage are reported monthly by the Clerk of the Superior Court of each county where the marriage or dissolution of marriage occurred.

The 2013 Advance Vital Statistics report was the first report in this series to include cell suppression. To protect the anonymity of the individuals included in this report, cells in tables with five or fewer observations are denoted by an asterisk (\*), cells containing rates based on counts of five or fewer are denoted by a double-asterisk (\*\*), and cells containing sums based on addends of five or fewer are rounded to the nearest tens-unit and denoted by a dagger (†).

The first part of this report presents a summary of pregnancies by pregnancy outcome, births and deaths, spontaneous and induced terminations of pregnancy, and marriages and marriage dissolutions for the state and by county in 2022.

The second part focuses on selected demographic and prenatal care characteristics of the women giving birth (age group, marital status, trimester of entry into prenatal care, party paying for the delivery, number of prenatal visits) and the incidence of low-birthweight.

The third part addresses cause-specific and age-specific mortality by county, urban/rural region, and racial/ethnic group in 2022.

The fourth part of the report provides population denominators for 2022 by age group, gender, and county of residence. The 2022 Arizona Department of Health Services population denominators were estimated using the 2022 population projections obtained from the Office of Economic Opportunity.

It is hoped that this advance vital statistics report will be a valuable resource for public health and other professionals until the full annual report is available. The online editions of "*Advance Vital Statistics by County of Residence in Arizona*" for 1999–2022 are available at:
