Notes: \* Cell suppressed due to non-zero count less than 6; † Sum rounded to nearest tens unit due to non-zero addend less than 6; Before, data for 2000 mortality medical information was based on manual coding of an underlying death for each certificate in accordance with WHO rules, and done locally by the Office of Vital Records. Effective with the 2000 data year, cause-of-death data presented in this publication were coded by the National Center for Health Statistics, using computerized procedures of SuperMICAR (Mortality Medical Indexing and Retrieval) and ACME (Automated Classification of Medical Entities) systems. The conversion to computerized coding contributed to at least some of the breaks in comparability over time of cause-of-death statistics for drug-induced deaths, intentional self-harm (suicide), firearm-suicide, and accidental discharge of firearms.<sup>a</sup> May include records with unknown or unspecified

Data year	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013
<b>Suicide</b>	807	854	915	948	986	968	1,060	1,070	1,113	1,070	1,116
<b>Suicide by firearms</b>	476	498	507	554	541	529	596	602	669	638	643
<b>Accidental discharge of firearms</b>	13	13	15	9	13	9	7	11	8	*	9
