# PREFACE

This report provides readers with the statewide and county-level vital statistics information for 2015. It is provided in advance of the publication of "*Arizona Health Status and Vital Statistics, 2015*". The complete yearly report will be available at the end of 2016.

The source documents for the data presented in this report are 2015 vital records: certificates of live births, certificates of deaths, and fetal death certificates filed with the Arizona Department of Health Services on or before June 2<sup>nd</sup>, 2016. Information on abortions is compiled from reports sent by providers within the state. The counts of marriages and dissolutions of marriage are reported monthly by the Clerk of the Superior Court of each county where the marriage or dissolution of marriage occurred.

The 2013 Advance Vital Statistics report was the first report in this series to include cell suppression. To protect the anonymity of the individuals included in this report, cells in tables with five or fewer observations are denoted by an asterisk (\*), cells containing rates based on counts of five or fewer are denoted by a double-asterisk(\*\*), and cells containing sums based on addends of five or fewer are rounded to the nearest tens-unit and denoted by a dagger (†).

The first part of this report presents a summary of pregnancies by pregnancy outcome, births and deaths, spontaneous and induced terminations of pregnancy, and marriages and marriage dissolutions for the state and by county in 2015.

The second part focuses on selected demographic and prenatal care characteristics of the women giving birth (age group, marital status, trimester of entry into prenatal care, party paying for the delivery, number of prenatal visits) and the incidence of low-birthweight.

The third part addresses cause-specific and age-specific mortality by county, urban/rural region, and racial/ethnic group in 2015.

The fourth part of the report provides population denominators for 2015 by age group, gender, and county of residence. The 2015 Arizona Department of Health Services population denominators were estimated using the 2015 population projections obtained from the Office of Employment and Population Statistics within the Arizona Department of Administration.

It is hoped that this advance vital statistics report will be a valuable resource for public health and other professionals until the full annual report is available. The online editions of "*Advance Vital Statistics by County of Residence in Arizona*" for 2005–2015 are available at:

Note: Population denominator tables can be found:  
<http://www.azdhs.gov/plan/>

Our Web site at <http://www.azdhs.gov/plan> provides access to a wide range of statistical information about the health status of Arizonans. The Arizona Health Status and Vital Statistics annual report examines trends in natality, mortality, and morbidity towards established health objectives. In addition to the print and original online versions, the 2014 report is made available as a mobile-friendly e-book. Additional reports and studies include Advance Vital Statistics by County of Residence, Injury Mortality among Arizona Residents (accidents, suicides, homicides, legal intervention, firearm-related fatalities, drug-related deaths, drowning deaths, falls among Arizonans 65 years or older), Hospital Inpatient and Emergency Room Statistics (first-listed diagnosis, procedures, mental disorders, asthma, diabetes, influenza and pneumonia, and substance abuse), Community Vital Statistics, Teenage Pregnancy, Differences in Health Status Among Racial/Ethnic Groups, and Health Status Profile of American Indians in Arizona.
