ADVANCE VITAL STATISTICS

BY COUNTY OF RESIDENCE

ARIZONA, 2020

by

Marguerite L. S. Kemp, Ph.D., Arizona Vital Statistician
Yan Huang, M.S., Vital Statistics Health Management Analyst
Clare Torres, Senior Health Data Analyst

June 2021

PREFACE

This report provides readers with the statewide and county-level vital statistics information for 2020. It is provided in advance of the publication of *"Arizona Health Status and Vital Statistics, 2020"*.

The source documents for the data presented in this report are 2020 vital records: certificates of live births, certificates of deaths, and fetal death certificates filed with the Arizona Department of Health Services on or before June 1st, 2021. Information on abortions is compiled from reports sent by providers within the state. The counts of marriages and dissolutions of marriage are reported monthly by the Clerk of the Superior Court of each county where the marriage or dissolution of marriage occurred.

The 2013 Advance Vital Statistics report was the first report in this series to include cell suppression. To protect the anonymity of the individuals included in this report, cells in tables with five or fewer observations are denoted by an asterisk (*), cells containing rates based on counts of five or fewer are denoted by a double-asterisk (**), and cells containing sums based on addends of five or fewer are rounded to the nearest tens-unit and denoted by a dagger (†).

The first part of this report presents a summary of pregnancies by pregnancy outcome, births and deaths, spontaneous and induced terminations of pregnancy, and marriages and marriage dissolutions for the state and by county in 2020.

The second part focuses on selected demographic and prenatal care characteristics of the women giving birth (age group, marital status, trimester of entry into prenatal care, party paying for the delivery, number of prenatal visits) and the incidence of low-birthweight.

The third part addresses cause-specific and age-specific mortality by county, urban/rural region, and racial/ethnic group in 2020.

The fourth part of the report provides population denominators for 2020 by age group, gender, and county of residence. The 2020 Arizona Department of Health Services population denominators were developed using the 2020 population estimates obtained from the Population Statistics Unit in the Office of Economic Opportunity (OEO) within the Arizona Commerce Authority. Arizona Governor's Executive Order 2011-04 requires the department to use these estimates instead of the United States Census Bureau data.

It is hoped that this advance vital statistics report will be a valuable resource for public health and other professionals until the full annual report is available. The online editions of *"Advance Vital Statistics by County of Residence in Arizona"* for 2009–2020 are available at:

<http://pub.azdhs.gov/health-stats>

Our Web site at <http://pub.azdhs.gov/health-stats> provides access to a wide range of statistical information about the health status of Arizonans. The Arizona Health Status and Vital Statistics annual report examines trends in natality, mortality, and morbidity towards established health objectives. Additional reports and studies include Advance Vital Statistics by County of Residence, Injury Mortality among Arizona Residents (accidents, suicides, homicides, legal intervention, firearm-related fatalities, drug-related deaths, drowning deaths, falls among Arizonans 65 years or older), Hospital Inpatient and Emergency Room Statistics (first-listed diagnosis, procedures, mental disorders, asthma, diabetes, influenza and pneumonia, and substance abuse), Community Vital Statistics, Teenage Pregnancy, Differences in Health Status Among Racial/Ethnic Groups, and Health Status Profile of American Indians in Arizona.
