Note: In order to obtain the 2007 population denominators by category of marital status and gender, the 2000 percentages (or census shares) by category of marital status and gender among persons 15 and over were applied to the 2007 population estimates of persons 15 and over. The suicide rates in the above table are unadjusted for differences in the age composition. Both the age-specific and age-adjusted suicide rates by marital status and gender are available for 2006 at <http://www.azdhs.gov/plan/report/im/im/im06/3/pdf/3-6.pdf>
