Selected Characteristics of Newborns and Mothers Giving Birth by Census Tract in Maricopa County

Table of Contents

Preface	1
1. Characteristics of Mothers and Newborns.....	3
2. Births by Mothers Race/Ethnic Group.....	15
3. Payee for Births.....	27
4. Births by Mothers Age Group	39
5. Infant Mortality by Race/Ethnic Group	51

Preface

This publication provides readers with the 1999 data on live births and infant deaths by census tract in Maricopa County, Arizona. Census tracts are relatively permanent subdivisions of a county, delineated by local census statistical areas committees following Census Bureau guidelines. Census tracts do not cross county boundaries.

Information on live births and deaths is compiled from the original documents (i.e., certificates of live births and certificates of death) filed with the Arizona Department of Health Services. The tabulated data include:

- 1) A set of indicators recommended by the CDC for assessing health status and monitoring progress toward the Year 2000 objectives* (incidence of low-birthweight births, births to females less than 18 years old, prenatal care as measured by the percentage of women giving birth who receive care during the first trimester of pregnancy and ethnicity-specific infant mortality);
- 2) Supplementary indicators focused on socio-demographic and prenatal characteristics (mother's ethnic group, payee for birth, women giving birth who had no prenatal care during pregnancy, women giving birth who had 5 or more prenatal visits and births to single mothers).

Many percentages or rates calculated from the data shown in this report would be based on a small number of events. Caution must be exercised when interpreting data based on small numbers of events and/or events occurring in small populations.

* Centers for Disease Control. Consensus set of health status indicators for the general assessment of community health status, United States. MMWR 40 (27): 449-51, 1991.

Our Web site at <http://www.hs.state.az.us/plan/ohpes.htm> provides instantaneous access to a wide range of statistical information about health status and use of health care in Arizona. The [Arizona Health Status and Vital Statistics](#) annual report examines trends in natality, mortality and morbidity towards established health objectives. Additional data can be found in the special reports and studies focused on differences in the health status by ethnic group, suicide mortality, unintentional injury mortality among children and adolescents, firearm-related fatalities, unintentional drowning deaths, drug-related mortality, teenage pregnancy and abortion practices in Arizona. The [Monthly Vital Statistics Bulletin](#) has the most up to date information on births, deaths, marriages and divorces.
